Let start with some basic truth.

Every day I receive emails in my box telling me that I can earn a 6 figures income within a few days and I don't have to lift a finger just start marketing a program. I do not know if you have tried or consider to try such a program. But the first thing you have to understand if you want success with an Online Business is:

People buy from people the trust and like !

This has always been the key point in business – you get success if your customer trust and like you.

But still you see all the sites telling you that

Get rich tomorrow without lifting a finger!

Just work 5 minutes a day and make a 6 figures income!

I do not if you have met some of the peoples but in my opinion this is HYPE. The truth is that it is possible to get a 6 figures income in some of these program – but most people fail.

To get success online is possible – but you have to do the work before you can earn such an income.

The next key point is this: **If you really want to get success online - you have to understand that it is business that you run online – A BUSINESS – and you have to work every day. To get success you have to be ready to learn the business and how to be successful.**

What I talk about is an Online Marketing Business. This is an awesome business! It takes only a short time to learn, but when you understand ...

STOP and THINK – if there is no limit of the earning potential. What income possibilities are we talking about – and besides the money, which is our first priority - your lifestyle will change and you will get freedom – a tremendous future.

With this kind of an Online Marketing Business you can build your business from anywhere in the world. All you need is a computer and connection to the internet. **This is what I call freedom.**

Now you have to desire – Do you want the money and the freedom?

How can you achieve this? The answer is simple but powerful. **Find a partner.**

You have to partner with an individual or a group that already have achieved the success and who are ready to guide you.

When I started - I start looking for people who had been in my situation and now have success making money online. I wanted to learn what they did and how they did it.

I needed to know how. And again I tried to learn from those who already have success and now was creating wealth for themselves and their families.

This is what I have done.

Through my researching I found that there are people out there who are willing to help you, people who have earned a fortune and have the experience of online marketing. The key point – another – is to avoid the pitfalls. A lot of people fail because they do not know the pitfalls. And the best part of it is that they have continued to teach me more and more and often free – so you can get your education free if you find the right people or group.

You will learn that there is a tremendous income possibility if you know how to market. To know how to market is the key to success.

You see people go to marketing seminars where people teach them to make money online. You see seminars where people pay thousand of dollars to attend a week-end workshop and they come home geared up but they fail because they get overwhelmed of too much stuff in a short time period.

They are leaved with ideas but do not know where to start or how to set up the business.

And there is more-

As a Platinum Member (I will explain that later) you get :

The net Millionaire Training System

As mentioned before people pay thousands of dollars to go to a single seminar. Often will they come home overload of information and about 90% of the students never end up implementing what they have learned.

In my opinion it is a funny way to learn. You get an education value thousands of dollars without investing your real money.

Maybe you think that “to play a game is waste of your time”. But it is fun and enjoyable for the whole family and you will come in situations which you can translate into the real financial world.

And once you are set up you will make 300 – 2000 USD a sale – and the system will close your sale. *So you do not need special sale skills* – the system will do the sale for you.. Just imagine one sale each month. (a part time income of a few thousands).

Or if you make a sale each week (That sounds good). Or even better a sale each day. With YourNetBiz it is possible. There are many of us doing one sale a day or more.

“How to Market” Is The Key to Success with YourNetBiz.

YourNetBiz separates itself from other programs out there because it provides you with several products designed to assist you and your business to secure your success.

The Concept use a proven sales model where the business owner gets paid first and then the company gets paid, no waiting for your money. **You get paid directly from each new member.**

And you will be paid too when some of the new members who bought their package at your site get new members. You owe a proportion of each sale for life. **That is what I call leverage and can generate a significant income months after months – year after year.**

Remember why people 95 % fail. YourNetBiz was created to minimize the cause of why people fail.

In other business opportunities like **MLM** you have to speak to people non stop through the day. You talk with your family, friends, and every people you meet. But the key element is the number of hours.

Duplication.

Duplication is the key to success. **In order to be successful in any kind of business use the ability to duplicate one's efforts is the key.**

Duplication is very important.

How does YourNetBiz help you? YourNetBiz provides everyone who joins with countless resources that will give the optimal changes of getting success. There are tons of resources in the back office once you join. This is where the ready to learn factor comes in – you have to work with this part of your business.

In the back office you have access to all the tools and education you need to help you in your marketing efforts.

You will find training and support in:

- **Getting started**
- **Recorded training**

- **Live training**
- **Regular motivational calls**
- **Customer support**

When you join you also get your own capture pages to market (your name on the page) where prospects can put their email in before they can take the tour.

I am sure you have heard that to build a list is vital in any online business if you want to succeed. You will learn EXACTLY how to make that happen and then which is most important to **monetize your list into income.**

How to automate and outsourcing the sale process.

You do not have to close the sale. YourNetBiz provides you with the system. You do not have to talk to people on the phone for eight hours a day like other businesses require in order to make a serious income.

You let the system of YourNetBiz work for you 24/7/365.

Your Own Personal Business assistant will handle that side of the business. You do not have to talk to people if you do not want.

That is right!

You outsource the sale and get your own Personal Business Assistant to bring people into your business. Let them do the job, answer the questions your prospects will have about your business.

You just have to focus on Marketing. You outsource the “Closing the sale” to a professional.

Outsourcing is how to truly leverage your time and will lead you to great success. Why? You can focus on the marketing – and soon you will be very good to market your business and outsource the sale to a person who is professional in sale.

Time is a key point – don't do everything yourself.

Focus on your team. Find and build your team that will help you to reach the success you desire.

The system will automatically sorts your prospects to weed out the tire kickers – so you don't have to.

What the system does for you? Try to think of a worker in a goldmine, He sifts the sand over and over again and end up with? THE GOLD.

That is how YourNetBiz works for you.

You want to catch people when they are ready.

Most people who take the tour at your YourNetBiz site will be sorted out. They are not ready yet. You want people to join when they are interested and ready.

And that is exactly what the system does. It does all your presentations for you. When someone is interested to go to the next step then they will be taken. Some people will take days, some weeks and some months before they join.

Now they are ready - the next step might be an email, a phone call or they just buy. But **it is the system that does the work for you.**

That is the reality of today. That is why 95% of people fail when they try to start an online business, that is just the fact. The internet is a business – YourNetBiz is heading away from the traditional forms of business that many of us know from the past. Only a selected few people out there know these systems exist. You are one of them now.

How Much Do You Earn On Every Sale ?

Every time you make a sale you earn money. From each sale you make a payment to your sponsor and a wholesale fee to the company.

The amount of commissions you can earn is in DIRECT proportion to the level you are in. The highest level gets the highest commissions. You will find YourNetBiz owners that earn thousands a day.

Let take a look at the different levels.

There are 4 different level in the compensation plan.

	Bronze	Silver	Gold	Platinum
<i>Product Purchased</i>	\$495	\$995	\$1995	\$2995
<i>Wholesale Payment to Company</i>	\$95	\$145	\$295	\$495
 <i>Personal Product Sale Commission</i>	\$300	\$700	\$1400	\$2000

Know How Much You're Getting Paid - By Example

All these numbers can seem overwhelming, so here's a crystal clear explanation...

If you chose to be :

A **Bronze** member - you get 300 on the first sale and 100 on sales from your members.

A **Silver** member - you get up to 700 on your first sale and 150 from your members sale.

A **Gold** member - you get 1.400 on your first sale and 300 on your members sale.

A **Platinum** member - you get 2000 on your first sale and 500 on your members sale and squeeze every ounce of profit from advertising.

You can start on the level you like and then upgrade later, but note that you have to pay +20%. The bottom line is that **the serious people chose Gold or Platinum.**

NOTE THIS – If you chose to start as a Bronze member and a sale in a higher level – for example a Gold membership – you cannot earn more than 300 and the rest goes to your sponsor or the next person in your line above you in at the higher level if your sponsor not is at that higher level.

Can You Make Serious Money with YourNetBiz?

I do not know your background, experience or marketing skills, I can not promise you that you will get success. The system works for you but will only be profitable if you do your part of the work. You cannot rely on anyone than yourself to build your business.

Ask yourself: Do you really want to have success and build an Online Business ? Are you ready to start now or do you have to consider this possibility a few days before you take decision.

Here is another truth:

Myself and our group will be happy to provide you with the ways to be successful, but still you have to do your part. If you do not want to use our strategies and techniques, then you will have a hard job to do.

Take the full tour – have a pencil and paper ready – write down your questions and request a call back or you can call me.

The truth is that EFFECTIVE MARKETING is the real secret to your success in any program. If you are serious, our group can teach you EXACTLY how to generate a 6 figures income.

My primary motivation is of course to earn money. But as an old teacher I also like to help people who are looking for improvement of the finances or quality of life. And let's be honest every time you sell a membership I will earn money too. So you can be sure that I have interest in that you get success too. So let's be partners.

To make money is important but what I found out is that once you start making good money, money becomes unimportant and other things like your family, health, relationships, friends and things you can do to help others become the most important.

That is exactly why I want to help you.

TO BE PASSIVE OR ACTIVE PARTNER.

Is it possible to sit back and do relatively nothing and still make an income?

The answer is yes. But if you choose to be a relatively passive partner, do not expect to receive the kind of result you see and hear other partners achieve.

IF you want a 5 figures income each month or maybe each week as many members have today – you have to be an active partner and be ready to learn - implement our strategies – and invest in marketing.

There is no free dinner. If you don't know how to market, that is OK.

YourNetBiz offers Co-op Marketing Campaigns if you want a hand free solution.

Do not expect 5 -10 sales a month from that source. You may make some money but it will take longer to get your business up running. It takes some time before you have enough interested prospects in your pipeline.

You can also have a Private Marketing Site. That is what most of the people in our group have. If you choose to join with me and my group we will teach you EXCTLY what us top earners do and how we do it.

All you have to do is copy our strategy and you will be profitable. You can duplicate our success. This is a **HUGE OFFER**.

If you commit to **treat YourNetBiz membership as a business** – our program will deliver the rest and you will get the success you desire.

Here is another thruth.

The reality is that **you have to be active with your business**. *If you do not buy adverting or marketing by yourself – then YourNEtBiz will not generate any income.* You can choose to use free traffic or paid traffic but you need to create the traffic to get success.

Every business has to market.

Now you have the knowledge about YourNetBiz.

Is YourNetBiz the right choice for you?

As mentioned before you now know that YourNetBiz is designed for people who have big financial goals and some financial resources – A Bronze Membership cost 495 USD – a Platinum cost 3.000.

It is your decision. YourNetBiz is a turn key solution with the ability to generate a 6-figures income in the first year and if you have the resources to start a business like this – YourNetBiz is maybe for you. Only you can know what is best for you.

In my opinion you need 495 USD to get the Bronze membership + 59.95 to an ongoing fee paid to the admin for the website, back office support and hosting. I think that this is only a small fee considering all the income the business generates.

You will also need some capital for advertising and marketing. I will recommend minimum 250 USD. Then you can be sure your business will be up running.

A total of 800 USD that is what is the minimum to start with.

And when you start selling memberships use some of the money to ongoing marketing activities.

I will mention again that you will have help on marketing – what and where to market when you join our group. This information alone will save you a lot of money.

And remember one thing you do not have to have internet or business experience to get started – but you have to be ready to learn. Be prepared to learn and to be patient – result will not come overnight.

The truth is that YourNetBiz is not for everyone.

“If you want to be successful, find someone who has achieved the results you want and copy what they do and you’ll achieve the same results.” Anthony Robbins

Now I have told you the truth about YourNetBiz. If you have any questions you can contact me here

If you want to partner with me I will help you if you want to be an active member.

I take an active role in working with anyone that joins me in this program – especially if you want to generate a substantial income.

The Next Steps.

1. **Take the full tour.** This will refresh everything I have told you.
2. **Request a Call Back** if you have any questions. Speak with a Professional Business Assistant. You can try the system before you jump in.
3. **Hit the join button** – if you decide this is the right business for you and want to work with me.

If you still have questions or just want to speak with me over the phone – send me an email and a possible time that you are free and I will give you a call. In the email please type in your name and phone number **twice** + time zone

**"You can have anything in life you want, if you just help
enough other people get what they want"**
Zig Ziglar

So .. what are you waiting for ?

You do not know ... You are not sure Maybe..

I think you can not find a better time to start your way than today. You can count on me and together we can get your business up running as you intend that it should – and probably a great deal further.

If you say no to this possibility – be sure you understand what you are saying no to. It is your decision – and the decision will not change my life. I will still generate my 6 figures income or more.

Make your choice.

Best Wishes for Your Success.
